FIND MONEY BOX

Part of Cash in Daylight Robbery Found in Store.

Container Hidden Under Kitchell & Marburg Counter.

Mystery in the daylight robbery of he Kitchell & Marburg safe, 527-529 Kitchell & Marburg safe, 527-529
Kinnsas avende, Thursday morning, deepened today when Detective George
B. Frost found the tin box which contained the \$200 in cash hidden behind a counter in the store. Thirty-six dollars in silver and some checks remained in the box. All paper money, estimated at from \$175 to \$180, was missing.

"Case Not Ended"-Frost.

"Case Not Ended"—Frost.

"That doesn't end the case by any means," said Frost today.

Frost furthermore refused to advance his theory regarding the theft. The counter under which the box was hidden is to the west of the safe several feet further toward the rear of the store than the safe itself. Officers now are inclined to believe that it would be next to impossible for the thief to do as it was first thought he had done—walked into the store from Kansas avenue, gone to the safe, continued a circuitous route and gone out on Kansas avenue thru the second door which faces the main street.

To do that in ten minutes would be door which faces the main street.

To do that in ten minutes would be difficult and then to add the time necessary to empty the box of paper money, hide it behind the counter far in the rear of the store and make an exit on Kansas avenue would be next to impossible, officers say, Especially is this true, they assert, when one takes into consideration that clerks and both monricors were in the store and both proprietors were in the store at the time of the robbery.

Safe Robbed Once Before, The police were informed Friday that a similar safe robbery occurred in the store in July when \$16@ was stolen. This robbery was not reported to the police until after the \$290 robbery Thursday, the police declared.

EMMA GOLDMAN SUBMITS

to Prevent Deportation to Russia." Washington, Dec. 13.-As the su Washington, Dec. 13.—As the supreme court is not in session today, formal withdrawal by Emma Goldman of her application for an appeal from federal court decrees in New York dismissing habeas corpus proceedings, brought in an effort to prevept her deportation to Soviet Russia, cannot be made until next Monday. Harry Weinberger, her counsel, has written Assistant Attorney General stewart asking that the application be withdrawn and Mr. Stewart is expectd to notify the court Monday of her tecision to submit to deportation at he same time Alexander Berkman is ent out of the country.

TINY COLLEGE IN OLD KENTUCKY SHOCKS FOOTBALL WORLD WITH POWERFUL ELEVEN

above, and "Bo" McMillan, below.

BY N. E. BROWN.

When the 1919 football season started about the only person outside the college who knew that Centre college was going to have a football team was the man who sold the squad its uniforms.

But right now Centre college is the center of interest in griddom.

This little institution of learning is in Danville, Ky. It boasts of a total currollment of 225—or perhaps 250—persons. Seventeen or eighteen of these played football this fall and piled up a total of 485 points. They played nine games—tacking the big ones and the little ones, too, and in those nine games scored an average of fifty-eight points to a game—which is pretty close to Hurry Up Yost's ideal of a point a minute.

One of their men. Center Red Weaver, did a little startling on the side by kicking forty-six consecutive field goals. This alone is believed to be a world's record in any branch of football.

Centre broke quietly into the grid limelight early last fall with a 97 to 0 victory over Hanover. Indiana rooters laughed the next day—for in-

over Half Million Worth of Jewel Thief Pleads Guilty Be fore Judge Whitcomb.

Germany Lost No Chance to Get Sentenced To Not Less Than 5 Years at Lausing.

Charlie Patten, who has confessed worth hundreds of thousands of dol-lars are on the American Christmas trunk from the National hotel, ap-

lars are on the American Christmas market, according to government reports here today.

Figures at the department of commerce showed that German dolls and toys valued at \$515,000 were imported during September and October. Imports during November and December are expected to swell this to a million.

That Germany is losing no time in ther efforts to secure a foothold in American markets is shown by other imports during October as compared with September. During October imports from Germany totaled \$2,157,668, an increase of \$500,000 over September.

Furs, toys, silk and sugar beet seed

ported The total values of these commodities were:

Furs. \$450.000; silk. \$99.083; toys. \$220.000; sugar beet seed. \$569,867.

Exports to Germany from this country during October more than doubled, compared with the previous months. In October, exports totaled \$20.655,521, compared with \$8.836,693 for September.

Bucnos Aires, Dec. 13.—The Argentine government is, reported to have informed Poland that Count Xavier Orlowsky, who was appointed Polish minister to Argentina is persona non strata because his wife is an Argentinian and the count owns a large amount of land in this country. Newspapers here protest against this reported action of the government of La Razon, saying. "Refusal to receive such a personality as Count Orlowsky hecause of these reasons is a stupid pretext. The Warsaw government will now send us a vice consul."

Light Weight and Durability are the best Guarantee of Quality

THE difference between a Maxwell and a larger car is largely a matter of

Each carries the same average passenger weight, travels over the same roads, and at the same speeds.

Per pound of metal the cost to make each is about the same.

One lasts just about as long as the other.

The mission of the Maxwell is to carry the same load, over the same roads, and at the same speeds at extremely low costs. That is highly efficient

transportation. It is expensive to haul dead weight. Therefore, every superfluous pound has been eliminated.

Light but strong metals have been used.

These are the quality metals. They provide the "toughness," the wear, the ability to stand any strain

and shock; and yet they are light in weight.

> This is the secret of the Maxwell. It explains why a Maxwell delivers a mileage

-that is inexpensive -that is troubleless

-that is almost endless. The greatest efficiency-

economy record ever made is held by a Maxwell. It ran 22,020 miles continuously without one single stop of the engine, carried a full passenger load, averaged

22 miles to the gallon, at a speed of 25 miles an hour! The story of the Maxwell and its great acceptance by the world is a story of its

For in five years 300,000 have been built, and these

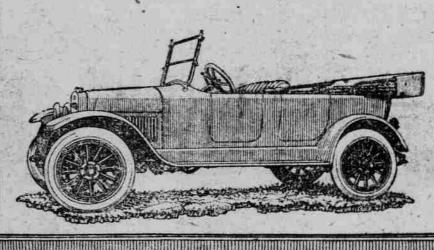

have made many friends. 1920 production increases to 100,000 Maxwells. Which will supply 60% of the
